## ENGLISH BRIDLES

Established for over 40 years English Bridles are specialist in handcrafting bridles to fit a range of sizes.

### English Bridles made by Master Craftsmen using the best Sedgwick British hand finished leather

EB products are made in our workshop by qualified and highly skilled saddlers, with the finished products being exceptional. Our Biothane Reins are made with genuine Biothane from America. English leather gives extra strength to our reins.

#### LEATHER CARE

Leather will need caring for if it is to be kept in tip-top condition. Even with excellent care, leather will age. How it is

cared for will affect how long it remains serviceable. **Do not use oil as this loosens the fibres and causes leather to stretch.** To ensure that the leather stays supple we recommend that you use leather balm.

## EB CUSTOMISED BRIDLES

A well fitted bridle will enhance the look of your horse and a horse that is comfortable will perform better. There is a measurement guide on the back of the brochure or online at [www.englishbridles.co.uk](http://www.englishbridles.co.uk)

» See the full range on our website.

## EB COMFORT BRIDLES

Comfort Bridles have a cut back padded headpiece and a softly padded noseband. There is a choice of a cavesson, a fixed flash or a detachable flash noseband and a choice of three widths of nosebands.

» See the full range on our website.

## EB REINS

English Bridles offers a wide range of craftsman made, quality English leather reins, with stainless steel fastenings. We use only genuine Biothane, which is polymer coated webbing. Reins made with genuine Biothane are durable, will not mold or mildew and can be quickly rinsed clean.

## EB BROWBANDS

The unique range of EB Browbands offers quality browbands in a range of stunning designs. They are made made from quality British leather and genuine Swarovski crystals.

» See the full range on our website.

## EB HEADPIECES

The cut back comfort headpiece positions the bridle further back than a traditional headpiece. The show bridle range has a plain traditional headpiece but we can put together a show bridle with a Comfort headpiece. Comfort, Comfort Dressage and Grackle bridles have the comfort cut back headpiece.

- 1 EB Comfort Cut Back Headpiece
- 2 EB Traditional Headpiece
- 3 EB Double Bridle Comfort Headpiece
- 4 EB Straight Comfort Headpiece
- 5 EB Comfort Cut back headpiece with integrated nose band straps

## EB CHEEKPIECES

EB Billet Hook Cheekpieces are available in 1/2", 5/8" and 3/4" width. Standard width 5/8" cheekpieces are available with billet hooks, buckles or clip fastenings.

» See the full range on our website.

## EB LEAD REINS AND CHAINS

EB Lead Reins are made with top quality Sedgwick English leather. They are available in different widths. They have a buckle fastening so a brass chain of your choice can be attached. The fastenings are solid brass and they can be polished to shine in the show ring.

- 1 EB Lead and Newmarket Chain
- 2 EB Newmarket Chain
- 3 EB Lead Rein and Brass Chain
- 4 EB Plaited Lead Rein
- 5 EB Brass Chain
- 6 EB Butterfly Lead

## EB PONY SADDLES

The EB Premier Pony saddle is designed to fit a range of small ponies. The saddles have adjustable gullet bars which range from X wide to narrow.

The X wide Premier saddle has been designed for Shetlands and Native ponies and has a wide gullet to distribute the rider's weight over the pony's spine.

The Premier saddle is ideal for a beginner as the seat and supporting knee pads help the rider to stay balanced.

The choice of premium leather sets this saddle apart and gives the rider a sensation of grip. The saddles are handcrafted and English Sheepswool flocking is used as this moulds quickly to the shape of the pony's back.

Saddle left

Saddle right

Saddle Girth Straps

The saddle has point straps, which keep it in place and stops it slipping forward.

## EB HEADCOLLARS

The EB headcollar has a detachable padded headpiece that can be undone on either side of the head. There is a solid brass clip on the rolled throatlash, making it easy to slip the headcollar on and off. It has maximum adjustment, so that it will fit over a bridle at a show or a competition. The softly padded noseband is adjustable and has a solid brass tie up ring at the back. The EB Headcollar is stylish, comfortable for the horse and offers quality at an affordable price.

## EB STIRRUP LEATHERS

EB stirrup leathers have a nylon core and are stitched for extra safety and to prevent stretching.

» See the full range on our website.

## EB STUDGUARDS

“They (*EB Studguards*) are so supple and fit without rubbing”

Di Fairclough, a UKCC level 3 BSJA coach and HOYS winner recommends EB Stud Guards.

EB Stud Guard (Sizes 40” – 56”)

» See the full range on our website.

EB Pony Balding Girths (Sizes 24”; 26”; 28”)

## EB GIRTHS

EB Girths have triple elastic at both ends - just one elastic can cause a twist in the saddle. Stainless steel roller buckles, high quality stitching and a durable supple leather are features of all of our girths.

*The girth can be selected with or without a ring.*

The EB Atherstone girth is shaped to prevent rubbing. (Sizes from 40” – 56”)

## EB BREASTPLATES

- 10 Novelty Purses

## GENERAL GUIDANCE

All purchases are subject to our terms and conditions. See our full terms and conditions on our website: [www.englishbridles.co.uk/terms](http://www.englishbridles.co.uk/terms)

### RETURNS

Any item bought from our stand at a show can be returned. A credit note or an exchange will be given. Make sure the item is unused, unmarked and has not been personalised or customised in any way.

Any item bought from the Sale section of our Trade Stand is not eligible for exchange or refund. Any item bought from the 'Offers' section of the website is not eligible for an exchange or a refund.

If you return an item for an exchange, there will be a postage charge.

### LEATHER CARE

Do not use oil. Oiling loosens the fibres too much and it actually makes the leather weaker. The fibres in modern leather are much looser because of the different, less pollutant, chemicals that are used in tanning. To ensure that the leather stays supple we recommend that you use leather balsam.

### SWAROVSKI

Swarovski do not guarantee against loss of crystals. Swarovski regard their crystal settings as jewellery and as such they are not made for everyday activities. As a result of this, there is no refund for lost crystals. Each stone is in a clasp. Swarovski is a premium product because of this feature. For a stone to come out the clasps have to be opened, as might happen if the stone gets caught and pulled. For Swarovski dog collars it is possible for the stones to come out if the dog's claw gets under the stone when it scratches its neck.

English Bridles, The Barn, Ardens Grafton, Warwickshire, B496DR

# HOW TO MEASURE YOUR BRIDLE GUIDE

## Is it difficult to get a Bridle to fit your horse?

Let us customise one for you - simply follow the 'How to measure your bridle guide'. Then email the measurements to: [info@englishbridles.co.uk](mailto:info@englishbridles.co.uk)

When you email your measurements an image is helpful and also let us know the type of bit you use. If the bridle you are using isn't a good fit add comments such as 'Browband is tight', 'Throatlash is too short it fastens on the last hole'.

Email your measurements to [info@englishbridles.co.uk](mailto:info@englishbridles.co.uk)

1

### BROWBAND

Measure the browband's total length from one end to the other.

2

### HEADPIECE

From the end of the throatlash one side, excluding the buckle, to the end of the point strap the other side.

3

### NOSEBAND HEAD STRAP

Measure the headstrap from where it joins the noseband one side over the head to where it joins the noseband the other side. Do not include the noseband.

4

### BIT TO BIT

From where the cheekpieces join the bit one side over the head to where the cheekpieces join the bit the other side.

5

### NOSEBAND

Measure the noseband, excluding the buckle, from one end to the hole that you do up on.
